Abstract: This OMB package requests clearance for data collection instruments to be used in a four-year evaluation of Lessons in Character (LIC) program. This study is based on an experimental design that utilizes the random assignment. LIC is an English Language Arts (ELA)-based character education curriculum that is expected to have positive impacts on student academic performance, attendance, school motivation, and endorsement of universal values consistent with character education. The evaluation will be conducted by REL West, one of the National Regional Education Laboratories administered by the Institute of Education Sciences of the U.S. Department of Education. Evaluation measures include student archived data (e.g., state mandated standardized test scores); follow-up surveys for students; teacher and parent rating/observation on various student aspects (e.g., student social skills); baseline and follow-up surveys for teachers; and teacher/administrator interviews. Baseline data collection will take place in 2007; follow-up data collection will take place in 2008, 2009, and 2010.
